

**PEDESTRIAN GATE
VEHICULAR GATE
UTILITY GATE**

Our Utility Gates are sturdy, and beautiful. Upon construction, they are ready to accept your own hardware, or you can choose from a selection of ours. They can be laser cut in almost any pattern and constructed of solid metal. Our utility gates are perfect for utility alcoves containing gas meters, for example, as they are visually open, well ventilated and can be made up to 10' tall. They can be swinging, sliding, or bifold to allow unobstructed access to the meters.

Gate Hardware options are available. Please inquire [415.749.6500](tel:415.749.6500) x 295
