

VINESCREEN™

BOK Modern's Vinescreen™ systems are applicable to building exteriors, parking Garage screens and Wallscreens. These panels can be directly mounted to edge of slab or other structure without the need for secondary supporting members. Panel systems are delivered to site fully fabricated and finished, ready for immediate installation. Designed with the same precision laser cutting typical throughout the entire BOK Modern line of products, our Vinescreen™ can be constructed in a wide array of patterns and shapes.

These drawings can not be used for the purposes of soliciting, negotiating, procuring, fabricating or otherwise obtaining quotes from other vendors. They are the sole and absolute property of BOK Modern and may only be used by or under license from BOK Modern.

Any reproduction, distribution, modification, public display or representation of the content in these drawings, in part or as a whole, in any medium, without the prior express written consent of BOK Modern LLC is strictly prohibited and may result in legal action.

VINESCREEN™

Tab and slot Vinescreens™ are a hybrid product combining the best aspects of our Rainscreen system with our Vinescreen™ system. We can achieve larger panel sizes due to the additional bracket support while no longer needing access to behind the panels to assemble the bolts.
